PEUGEOT e-EXPERT: Introduction

PEUGEOT e-Expert Front View

PEUGEOT e-Expert Rear View

'e' Monogram Badging

e-Expert Charging Capability

Technical

Full Electric Vehicle

The PEUGEOT Expert is not only available with a range of diesel powertrains to choose from, but is now also available as the new e-Expert. A full electric van.

The new e-Expert offers two different battery sizes to suit a range of customer needs. Both a 50kWh & a 75kWh battery are available on Standard & Long vehicle lengths.

Charging Flexibility

Two types of on-board chargers are available on new e-Expert, a 7.4 kW single-phase charger is included as standard. And an 11 kW three-phase charger is available as an option.

There are two main charging methods for the e-Expert.

Fast (AC): From a 7.4 kW wallbox a full charge is completed in 7.5 hours, and from a 11 kW wallbox a full charge is completed in 4 hours 45 mins.

Rapid (DC): 100kW public rapid charge terminals allow for an 80% charge in just 30 minutes.

Powertrain
With the new e-Expert's full electric powertrain, you will benefit from immediate performance with 260Nm of torque (from 0mph) and maximum power of 100 kW.

Range
The new e-Expert provides a choice of battery packs.

50kWh Battery: Range capacity is up to 148 miles (WLTP certified).
75kWh Battery: Range capacity is up to 211 miles (WLTP certified).

Styling

The new PEUGEOT e-Expert comes with distinctive and exclusive touches:

An 'e' monogram badging is included on the rear of the van as with the PEUGEOT electric car range.

Usage

The PEUGEOT e-Expert offers 3 different driving modes from the mode selector

Eco (60 kW, 180 Nm): For optimising range.

Normal (80 kW, 210 Nm): For everyday use.

Power (100 kW, 260 Nm): For optimal performance

EV Services

MyPeugeot App
The MyPeugeot App provides a number of useful EV features.

Charge management: Allows the user to control, plan, launch and check the vehicle's charge remotely.
Climate preset: Allows the user to remotely plan and control the heating or air conditioning in the interior of the Van.
e-Coaching: Allows the user to access consumption logs and usage statistics.

Charging Pass
PEUGEOT will also provide access to specific UK public charging points through a free subscription for an introductory period.

Technology

The head-up display functionality now includes additional EV specific information

A Powermetre & Battery Level Gauge: For displaying consumption.
A Consumption Gauge: For heating and air conditioning.
A Colour Matrix: To display energy flows, charge monitoring (current or delayed), on-board computer information and range.

The central touchscreen provides access to the additional Electric menu and usage data

"**Flow**': To view the live energy flow.
"**Statistics**": To display the consumption statistics.
"**Charge**": Which allows you to programme a deferred charge.

** WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.

(1) The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1st September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used. SpeedCam/Danger Zones package

The SpeedCam/Danger Zones package helps you identify situations which require increased attention by sending you both audible and visual alerts (subject to settings). Within the UK the service highlights different types of speed cameras, and red light cameras, as well as accident blackspots. While the service is operational across most of Europe, it adapts as necessary when travelling in different countries to ensure the local laws with respect to Speed Camera identification are followed.
This option can be added to your PEUGEOT Connect Nav subscription at any time. For further information visit our website at peugeot.co.uk or contact your local PEUGEOT Retailer.

The Electric ranges shown in miles assume that the vehicle has been pre-conditioned prior to a journey. This function can be accessed via the MyPEUGEOT App or by using the 7" Capacitive Colour Touchscreen.

(1) The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used. *CO2 figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable. For further information on CO2 and pricing for vehicles with optional equipment, please visit www.peugeot.co.uk and configure your chosen vehicle with your preferred options. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard.

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.**'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance. All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

(1) Without driver. Kerb weight is calculated for a European base specification vehicle including oil, water, lubricants, tools, spare wheel and 90% full fuel tank. Weights may change with the addition of equipment.

(2) Maximum indicative payload is calculated as the difference between GVW and kerb weight. However, due to manufacturing tolerences and differences in the specification of UK vehicles, the mass in service figure provides a closer indication of the vehicle weight and therefore enables a more realistic payload to be calculated.

An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits

(3) Within limits of GVW.

(4) Maximum recommended towing weight within limits of GTW.

PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 - Year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retailer Network in the UK. This additional warranty carries a mileage limit of 100,000 miles from first registration and is dependent upon the manufacturer's recommended servicing being carried out at the specified time or distance intervals. For full terms and conditions, please consult your PEUGEOT Retailer in the UK. The battery for the new PEUGEOT e-Expert is guaranteed for 8 years or 100,000 miles for 70% of its charging capacity.

PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service. Available every minute of the day and night, 365 days of the year, and for you and anyone else driving your PEUGEOT with your permission. Please note that PEUGEOT Assistance provides assistance in relation to vehicle warranty based faults on your PEUGEOT. It does not provide cover for non-vehicle warranty faults such as:

• the use of incorrect fuel, or lack of fuel

• wheel changes, punctured tyres

• instances where keys have been locked inside the vehicle, lost or stolen.

• road traffic accidents

PEUGEOT Assistance is free for the first year and includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. PEUGEOT Assistance can be extended for a further 12 or 24 months, or to protect you against non-vehicle warranty fault incidents, at specially discounted rates for PEUGEOT owners by calling 0870 752 7050. Call charges to this number from landlines and mobile networks may vary. For more information please contact your phone provider.
